

SLOVAK RESEARCH  
AND DEVELOPMENT  
AGENCY

# Observing techniques, instrumentation and science for metre-class telescopes II

## SOC:

Ján Budaj, co-chair (Slovakia)  
Theodor Pribulla, co-chair (Slovakia)  
Augustín Skopal, co-chair (Slovakia)

Daniel Bayliss (U.K.)  
Petr Kabath (Czech Republic)  
Laszlo Kiss (Hungary)  
Leonard Kornoš (Slovakia)  
Ulisse Munari (Italy)  
Ronald Mennickent (Chile)  
Štefan Parimucha (Slovakia)  
Ernst Paunzen (Czech Republic)  
John Southworth (U.K.)

## LOC:

Ľubomír Hambálek, chair

Richard Komžík  
Emil Kundra  
Matej Sekeráš  
Natalia Shagatova  
Alisa Shchurova

## TOPICS:

High-precision ground-based photometry  
Astronomical polarimetry  
Speckle interferometry  
Near-IR observations  
Robotic telescopes  
Fast photometry  
Lucky imaging  
Spectrographs  
Interferometry

Exoplanets  
Solar system  
Space debris  
Eruptive stars  
Pulsating stars  
Galactic astronomy  
Eclipsing binary stars  
Young and active stars

Telescope networks and surveys  
Ground-based support of cosmic missions  
Follow-up observations from big telescopes

**September 24 - 28, 2018**  
Tatranská Lomnica, Slovakia
